

Why not Wh-?

I am interested in what you have to say.

What did you do where did you go why did you do that who was there how many is that...?

I know what I want to talk about!

What do they want me to say? Do they want me to talk about the park, lunch...? What should I say first? What do you call that thing? How can I explain that? I'm not sure how to say it when there are a whole bunch of them...mouses, meese...! Oops, they'll stop me if I say goed.
